## Professional Summary

I have a PhD in palaeo-climatology and am currently employed as a postdoctoral researcher at University College Dublin, researching the palaeoclimate of eastern Australia, with a focus on water security. I have strong data science skills and have developed research skills applicable to a broad range of topics within the environmental sciences. My PhD research focused on stalagmite-based climate proxy records and associated karst geomorphology and groundwater hydrology, while my current position is focused on exploring future water security by expanding our knowledge of the palaeo-environment of eastern Australia. I am hoping to continue my career in climate and hydrology area by securing a position where I can apply skills I have developed, develop new skills, and continue to engage with students and industry partners.

## Education

- Aug 2014 - **PhD (Geography)**, *School of Agriculture and Environment, The University of Western Australia*, Perth, Western Australia, Australia.
  - **Thesis: Speleothem-based palaeo-climate research: Methodology, applications, and insight from the Snowy Mountains, southeast Australia**
  - Supervisors: JN. Callow, H. McGowan, G. McGrath, H. Wong
- Jul 2013 - **BA (Hons, 1st Class) (Geography)**, *School of Geography, Planning, and Environmental Management, The University of Queensland*, Brisbane, QLD, Australia.
  - **Thesis: The Drip Hydrology of a Speleothem from the Yarrangobilly Caves, NSW, Australia**
  - Supervisors: H. McGowan, JN. Callow
- Feb 2010 - **BA (Geography and Spanish)**, *The University of Queensland*, Brisbane, QLD, Australia.
- Dec 2012

## Experience

### Research

- Jul 2020 - **Postdoctoral Researcher**, *School of Geography, University College Dublin*, Dublin/Brisbane, QLD, Ireland/Australia.
- present

- Feb 2020 - **Scientist**, *Land and Water Science Unit, QLD Dept. of Natural Resources*,  
 Jul 2020 *Mining and Energy, Rockhampton, QLD, Australia.*
- Analysed sugar cane trash trial data in relation to nutrient and sediment transport.
  - Found that a significant proportion of the variation of sediment transported in cane paddock runoff can be described by soil type and cane trash cover.
- Aug 2019 - **Research Assistant**, *School of Agriculture and Environment, University of Western Australia*, Perth, WA, Australia.
- Miscellaneous data analysis tasks
- Aug 2014 - **PhD Researcher**, *School of Agriculture and Environment, University of Western Australia*, Perth, WA, Australia.
- Developed two new palaeo-climate proxy records for south east Australia
  - Showed that the climate of the LIG had similar significant periodicities to present, suggesting our long term climate patterns (e.g. PDO) will continue as temperatures increase with climate change.
  - Used social network analysis to advance our understanding of methodologies applied in the speleothem palaeo-climate proxy community and the development of the field over time.
  - Demonstrated that LA-ICP-MS and LA-ICP-AES of trace elements in speleothem calcite produce comparable results
- Teaching
- 2018 **Tutor: Geographies of a Global City**, *School of Agriculture and Environment, The University of Western Australia*, Perth, WA, Australia.
- 2018 **Course Co-Coordinator and Lecturer: Catchment and River Processes**, *School of Agriculture and Environment, The University of Western Australia*, Perth, WA, Australia.
- 2014–2018 **Tutor: Catchment and River Processes**, *School of Agriculture and Environment, The University of Western Australia*, Perth, WA, Australia.

Teaching contributions include the delivery and creation of content for undergraduate and masters level units, both in the classroom/laboratory and in the field. Catchment and River Processes, which I taught into since its inception at UWA, consistently achieved high student ratings, including in 2018 when it received a score of 3.7/4. This placed it in the 70<sup>th</sup> percentile of UWA courses.

## Funding and Scholarships

- 2018 **Australian Institute of Nuclear Science and Engineering Travel grant.**
- \$1000
- 2017 **Australian and New Zealand Geomorphological Group Travel grant.**
- \$300
- 2016 **University of Western Australia Travel grant.**
- \$1850

- 2015–2018 **Australian Institute of Nuclear Science and Engineering Postgraduate Research Award Stipend.**
  - o \$7500pa
- 2015–2018 **Australian Institute of Nuclear Science and Engineering Postgraduate Research Award Analytical Budget.**
  - o \$10000pa
- 2014–2018 **Australian Government Research Training Program Stipend.**
  - o \$26000pa
- 2014–2015 **Snowy Hydro Ltd. Stipend.**
  - o \$5000pa
- 2014 **University of Western Australia Stipend.**
  - o \$3000

## Publications

### Published

### In Preparation

1. Campbell, M., & Wong, H. (n.d.-). *LA-ICP-AES to analyse trace elements in speleothems. na.*
2. Campbell, M., Callow, J. N., McGowan, H., Wong, H., & McGrath, G. (n.d.-). *Solar forcing of mid-latitude terrestrial hydroclimate over the past 6.5 ka. na.*

## Conference Presentations

### Talks

- Feb 2017 **A geophysical approach to inform epikarst drip discharge modelling: Implications for palaeo-climate reconstruction**, *Australian and New Zealand Geomorphological Group 17th Biennial Conference, Greytown, New Zealand*, Campbell, M., Callow, J.N., McGrath, G.S., McGowan, H.A.

## Posters

- Apr 2018 **Climate patterns in South-east Australia: the Last Interglacial vs. the last 2K**, *20th EGU General Assembly, Vienna, Austria*, Campbell, M., Callow, J.N., McGowan, H.A., McGrath, G.S., Wong, H.
- Feb 2017 **First Insights of the Eemian Hydroclimate of the Snowy Mountains, Australia**, *Australian and New Zealand Geomorphological Group 17th Biennial Conference, Greytown, New Zealand*, Campbell, M., Wong, H., McGrath, G.S., McGowan, H.A., Callow, J.N.
- Dec 2016 **First Insights of the Eemian Hydroclimate of the Snowy Mountains, Australia**, *American Geophysical Union, Fall Meeting, San Francisco, USA*, Campbell, M. Wong, H., McGrath, G.S., McGowan, H.A., Callow, J.N.

---

## Skills

### Statistical

#### **Statistical Software.**

- R (advanced)

#### **Statistical Methods.**

- Time series analysis
- Hypothesis testing
- Social network analysis
- Linear models
- Generalised linear models
- Numerical modelling

### Field

#### **Surveying.**

- Total station
- Real time kinematic

#### **Electrical Resistivity Tomography.**

- Deployment
- Data processing and analysis

#### **Environmental Data Loggers.**

- Onset HOBO
- In-Situ Rugged Troll
- Driptych Stalagmate

#### **Environmental Sampling.**

- Isotopes in water
- Nutrients in water
- Soil profiling

Other

**Software.**

- Python (fundamental awareness)
- ArcGIS (novice)
- Microsoft Suite (advanced)
- LaTeX (novice)
- Rmarkdown (intermediate)

---

Service

Aug 2017 - **Participant, Science in Schools Program.**

- Aug 2017 ○ Travelled to a regional town to share some love for science with primary school kids

Feb 2015 - **Postgraduate representative to the School of Earth and Environment.**

- Jul 2017 ○ Led the organisation of 2 annual symposia for postgraduate students within the school.  
○ Reported student concerns to the School administration  
○ Support and troubleshooting for new students

Mar 2016 - **Co-Convenor, SEE LearnR Workshop.**

- Jan 2016 ○ Organised a short series of 'Introduction to R' courses for the students and staff of the School of Earth and Environment

Oct 2014 - **Guest presenter, ENVT2221: Global Climate Change and Biodiversity.**

- Oct 2014 ○ Presented 'Palaeo-climate and Stalagmites' for 2nd-year Biology students at UWA

Professional Development

- 2020 Advanced R Workshop. The University of Queensland, Australia
- 2020 Intermediate R Workshop. The University of Queensland, Australia
- 2018 Weathering Climate Change: How have humans coped with climate change-and how will we continue to do so. The University of Western Australia, Australia
- 2018 Masterclass in Creating Opportunities and Developing your Research Skills. The University of Western Australia, Australia
- 2016 Synthesis II - From dynamics of structure to function of complex networks. TU Dresden, Germany
- 2016 Water on Earth: origin, reservoirs, and its global cycle. The University of Western Australia, Australia
- 2016 Fundamentals of the analysis of networks. The University of Western Australia, Australia
- 2014 Writing and publishing in scientific journals. The University of Western Australia, Australia
